

A DIVISION OF SIS INVESTIGATIONS

INVESTIGATIONS THAT HOLD UP UNDER CROSS-EXAMINATION.

We build the factual record for public entity liability, school district, and abuse litigation. Every fact sourced, cross-checked against every other fact, and confirmed by an investigator before it ever reaches your desk.

THE PROBLEM

A REPORT YOU HAVE TO RE-CHECK ISN'T A REPORT.

Too many investigative reports arrive either as a wall of near-verbatim transcript or as a summary so condensed the detail that matters to the case has been sanded off. Either way, the work lands back on your desk: someone on your team goes into the raw interviews and records to confirm what actually happened.

That defeats the entire purpose of retaining an investigator.

SIS Liability rebuilt the process around a single principle: the factual record is assembled and verified before any report is written, not reconstructed from raw material each time someone needs an answer.

THE STANDARD WE WORK TO

RIGOR YOU CAN TRACE BACK TO THE PAGE AND THE TIMESTAMP.

////////

NO SURPRISES AT DEPOSITION

Contradictions between witnesses and gaps in the timeline are surfaced to you in advance, not discovered live by opposing counsel.

////////

HUMAN SIGN-OFF ON EVERY FACT

An investigator reviews and confirms each fact before it can appear in a report. Nothing reaches you unchecked.

////////

FULL TRACEABILITY

No finding stands alone. Everything links to an exact source: a specific recording timestamp or document page, verifiable in seconds.

////////

THE SAME STRUCTURE EVERY TIME

Regardless of which investigator worked the case, your team always knows exactly where to find what it needs.

PRACTICE AREAS

WHERE WE WORK

Litigation-support investigation for firms carrying complex liability matters against public institutions.

ATTORNEY CIVIL LIABILITY

Matters where an attorney's own conduct is at issue: professional negligence, fiduciary duty, and civil exposure claims requiring an independent factual record.

PUBLIC ENTITY LIABILITY

Claims against municipalities, agencies, and public boards where the record is scattered across departments and custodians.

SCHOOL DISTRICT LITIGATION

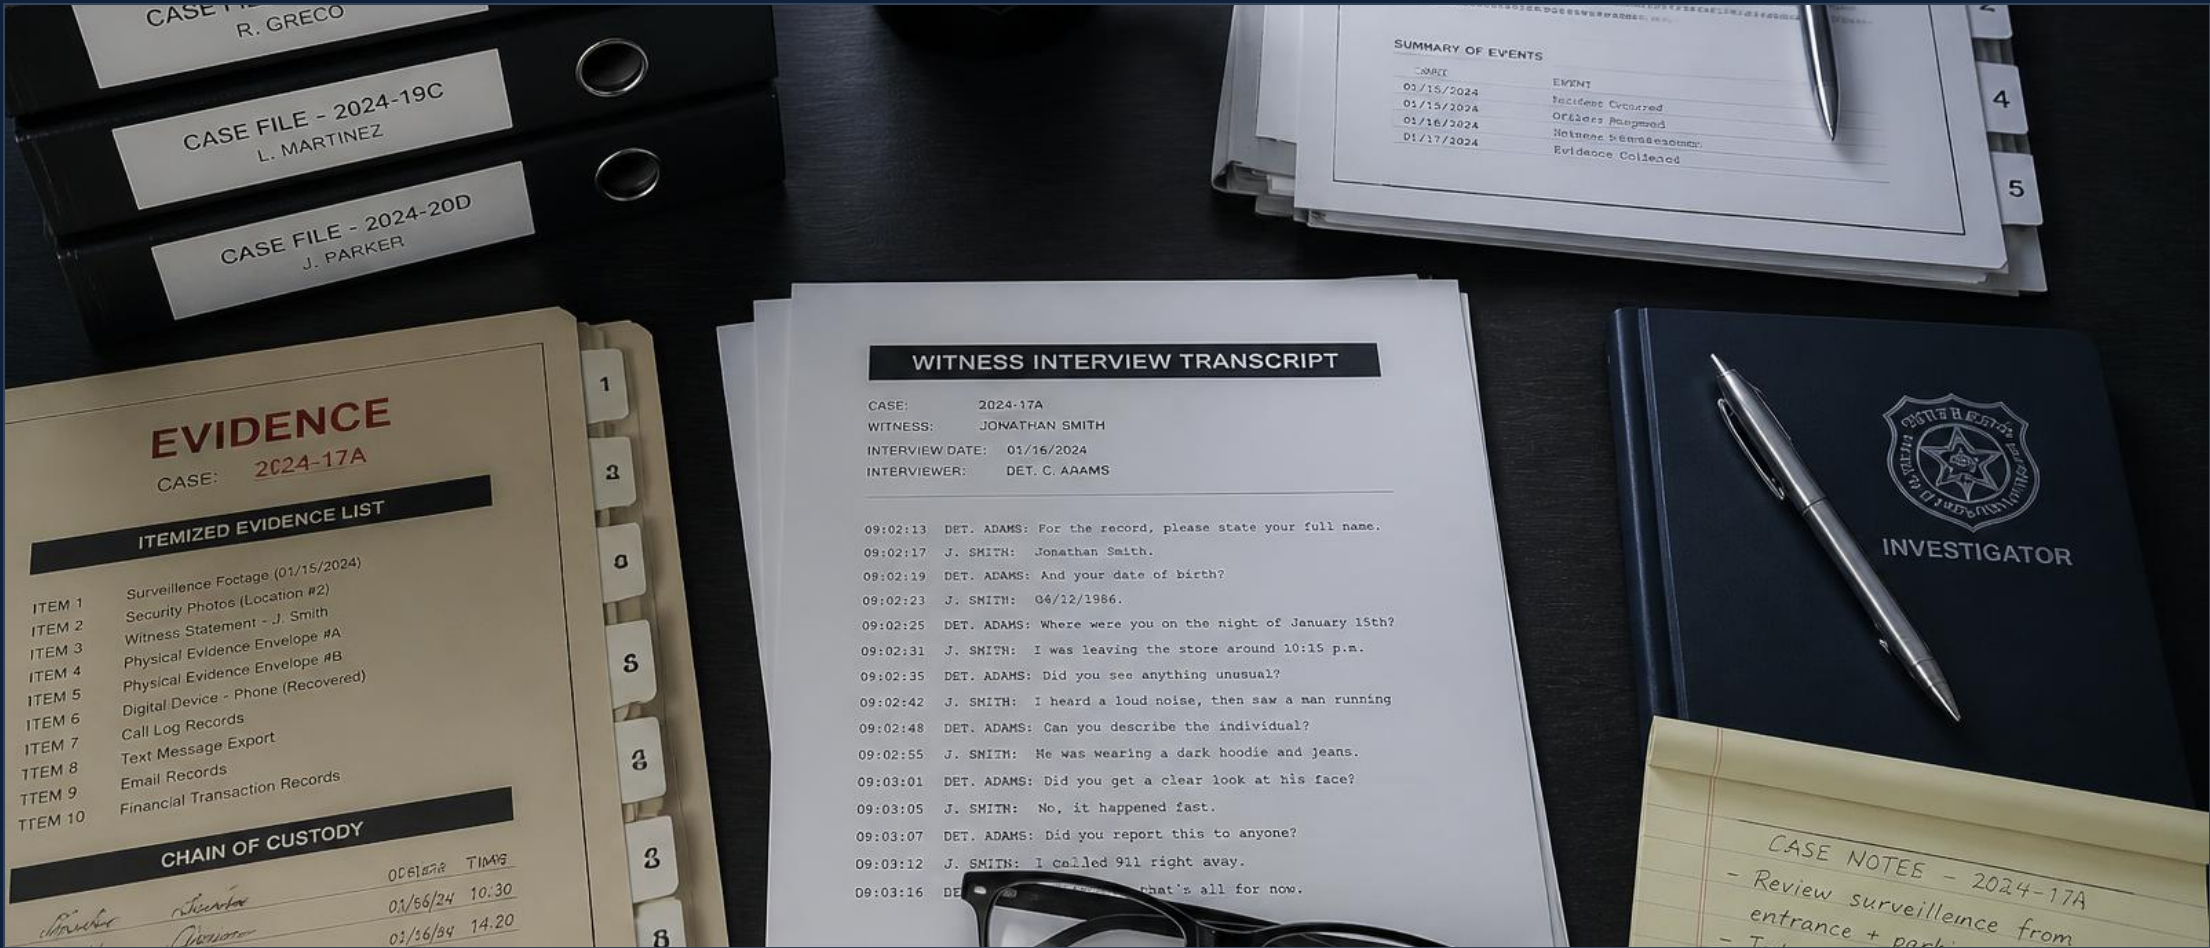

Negligence and abuse matters involving districts, personnel, and campus records, handled with the discretion they require.

NEGLIGENCE & ABUSE CLAIMS

Complex fact patterns with multiple witnesses, shifting accounts, and timelines that have to hold up under cross.

WHAT YOUR FIRM RECEIVES

FIVE DELIVERABLES. SAME STRUCTURE, EVERY ENGAGEMENT.

D - 01	EXECUTIVE SUMMARY	A one-page briefing read in five minutes: headline findings, open questions, and what needs your attention first.
D - 02	FULL INVESTIGATIVE REPORT	The complete narrative organized by allegation, every finding cited to its source, ready to attach or hand to co-counsel.
D - 03	EVIDENCE APPENDIX	Every transcript, record, and exhibit indexed and callable on the spot during deposition prep or at trial.
D - 04	REPORT INDEX	Findings cross-referenced by person, date, and allegation so your team jumps straight to what matters.
D - 05	SOCIAL MEDIA REVIEW	Publicly available activity relevant to the case, captured and preserved with metadata intact for authentication.

SEE IT FOR YOURSELF

SAMPLE INVESTIGATIVE REPORT

A redacted example of the exact format your firm receives, structure, citations, and index included.

NOT A STARTUP WITH AN APP. AN INVESTIGATIVE FIRM THAT MODERNIZED ITS PROCESS.

SIS Investigations has spent 37 years and more than 1,000 cases doing this work. SIS Liability is our division built exclusively for attorneys: litigation-support investigation, nothing else.

The methods behind the record are modern. The judgment applied to it is human, and it belongs to investigators who have testified, been cross-examined, and know what a record has to survive.

BRING US ONTO THE CASE.

Request a case consultation and we'll walk through the matter, the record as it stands, and what a verified investigative file would look like for your team.
